VAGHELA YAGNADEEPSINH .C

Software Developer | Full Stack Enthusiast | BCA Final Year

+91 9687180288	yagnadeepsinh.4741@gmail.com	Bhavnagar, Gujarat	GitHub

CAREER OBJECTIVE

Motivated and detail-oriented Software Developer with a solid foundation in full stack web development, object-oriented programming, and database management. Seeking an entry-level role or internship where I can apply my skills in JavaScript, Python, and modern web technologies to build scalable, user-centric products. I bring a passion for writing clean code, solving real-world problems, and growing continuously within a collaborative engineering environment.

EDUCATION

Qualification	Institution	Year	Score
BCA – Sem 6 *(Ongoing)* Avg Sem 1–5	Shree Swaminarayan College of Computer Science, Bhavnagar	2023–26	**79.53%**
12th – Commerce	Christ School, Chitra, Bhavnagar	2023	75.00%
10th – SSC	Christ School, Chitra, Bhavnagar	2021	69.17%

ACHIEVEMENTS

- **Finalist at AI4DEV National-Level Hackathon**

  Competed at the national level in the AI4DEV hackathon organized by PSG College, Coimbatore. Worked collaboratively in a team to develop innovative AI-driven solutions, demonstrating strong problem-solving skills and the ability to build functional prototypes under time constraints.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java, JavaScript

Web Technologies: HTML5, CSS3, PHP, ASP.NET

Database: SQL, PL/SQL, Supabase

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA)

Tools & Platforms: Git, GitHub, VS Code, Vercel

FEATURED PROJECT

TalkPrivate – Real-Time Chat Application | *Full Stack · Production Deployed*

Live Demo | *Tech Stack: JavaScript, HTML5, CSS3, Supabase, PostgreSQL, Vercel*

- Architected and deployed a complete full-stack real-time chat application using Vanilla JavaScript and Supabase, capable of handling multiple concurrent users with near-zero message latency.
- Leveraged Supabase Realtime subscriptions to implement live bi-directional messaging — messages appear instantly on all connected clients without any page refresh or polling.

- Designed and implemented a complete user authentication system including secure email/password sign-up, login, session persistence, and protected conversation routing.
- Built a fully responsive, mobile-first UI using pure HTML and CSS — no external UI framework — demonstrating strong core front-end fundamentals.
- Integrated Supabase PostgreSQL for persistent message storage, ensuring users can scroll back through complete conversation history even after reconnecting.
- Configured automated CI/CD pipeline on Vercel connected to GitHub — every push to main triggers a zero-downtime production deployment.
- Maintained a clean Git workflow with structured commits, feature branches, and organized repository — reflecting professional version control habits.

ADDITIONAL SKILLS

- Proven ability to independently build and deploy full-stack web applications from concept to production.
- Writes clean, modular, and well-documented code following industry standards and best practices.
- Quick learner with strong analytical problem-solving skills and keen attention to detail in every project.
- Comfortable working independently or in a team, with a disciplined approach to version control and code quality.

LANGUAGES

Gujarati: Native

Hindi: Fluent

English: Professional

PERSONAL DETAILS

Date of Birth: 14 August 2005

Nationality: Indian

Location: Bhavnagar, Gujarat, India

I hereby declare that all information stated in this resume is accurate and true to the best of my knowledge. I bear full responsibility for the correctness of the details provided.
